

Live Denver Training Course!

Electrical Troubleshooting For HVAC Hands On!

Reap the Rewards of Precision!

Eric Shidell, Instructor

**Sign Up
Today!**

In this class, students will use the hands – on electrical trainers to create and build HVAC electrical circuits and use digital multi meters to troubleshoot them. Students will learn real – world techniques from a veteran HVAC troubleshooter that will apply directly to field work the very next day!

Where: Sheridan Library Meeting Room
3425 W. Oxford Ave.
Denver, CO 80236

When: Friday, Feb 23, 2018 9:30 AM til 4:30 PM

Instructor: Eric Shidell, HVAC Service Mentor

Cost: \$355 per person. Includes lunch and course materials.
Class is limited to only 16 people to ensure each participant receives the attention they need.

Students are required to bring the following to class:
